6.1. Google Analytics

We use the functions and services of "Google Analytics," a web analytics service provided by Google Inc. (hereinafter referred to as "Google"), on our website. Google uses cookies that contain information about the use of the website by the respective users. This information is transmitted to servers operated by Google and stored on them, whereby these servers may also be located abroad (e.g., in the USA).

The information stored in this way is used by Google on our behalf to compile reports on user activity on our website. In addition, Google may also provide us with other services related to the use of the website, whereby pseudonymized user profiles may also be created based on the stored data.

We only use Google Analytics with IP anonymization enabled, which means that the IP addresses of users of our website are truncated within the EU or the EEA. In rare exceptional cases, however, the full IP address may be transmitted to a Google server in a third country and only truncated after transmission. User data is stored for a period of 14 months and then deleted or anonymized. The IP address transmitted by your browser is not merged with other data collected by Google.

Our legitimate interest lies in particular in the continuous improvement, further development, and secure design of our online offering and website.

6.2. Google Tag Manager

This website uses Google Tag Manager. The provider is Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland (hereinafter Google). This service allows website tags to be managed via an interface. Google Tool Manager only implements tags. This means that no cookies are used and no personal data is collected. Google Tool Manager triggers other tags, which in turn may collect data. However, Google Tag Manager does not access this data. If deactivation has been carried out at domain or cookie level, it remains in place for all tracking tags, provided these are implemented with Google Tag Manager. 6.5. Meta remarketing

Meta pixels from the social media platforms Facebook and Instagram form part of our website. The Facebook and Instagram platforms are operated by Meta Ireland Ltd., 4 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland. If the user is located outside the European Union, the operator is Meta Inc., 1 Hacker Way, Menlo Park, CA 94025, USA. Meta pixels ensure that our advertisements on Instagram are primarily displayed to those platform users who have previously shown interest in our website. This ensures that people who are not interested in our website do not see Facebook ads or Instagram ads. For market research purposes, Meta pixels are evaluated to generate statistics on the effectiveness of Facebook ads and Instagram ads and posts. This allows us to determine whether interested parties have come to our website by clicking on a Facebook ad or Instagram ad.

When our website is accessed by clicking on a Facebook ad or Instagram ad, this generates a Meta pixel. This stores a small file ("cookie") on your device. If you subsequently access Facebook or Instagram with the same device, your Facebook profile or Instagram profile will store that you have visited our website. Meta's data use policy applies to this data processing and storage. All information on the processing and handling of Meta pixels, as well as the functionality and display of Facebook ads and Instagram ads, can be found at the following link: <https://www.facebook.com/policy.php>

7. Links and buttons to other websites

Our website offers the option of being redirected to the pages operated by CLAW on social media platforms by clicking on the embedded buttons. This automatically takes you to our "fan page." When you click on a button, a connection is activated and the button establishes a connection to the server of the respective network without any further action on your part. For this reason, we cannot influence the amount of data collected by this plugin. Your data, in particular data from the server log files, may be transferred to the respective network in the course of this process.

If you do not want your data to be transferred, please refrain from clicking on the buttons. We use buttons to redirect to the following social media platform operators:
